COMMENT FROM THE CEO:

PORTFOLIO DELIVERING PROFITABLE GROWTH

GROWING FASTER

During the quarter, we have identified new growth opportunities for our existing games, Hidden City and Survivors. The growth of these games in Q3 was driven equally by "organic" users, cross-selling within the company's game portfolio, and the increase of marketing spend. Our ambition is to grow the revenue and profit from these games substantially. While we are doing it, we are closely watching key metrics, making sure that the users we acquire are staying in the games for months, and that our marketing spend provides a substantial return on investment in a reasonable time. The ability to promote our games within the existing portfolio helps increase the momentum and is very important for the success of new games. The improved chart positions, in the App Stores, for these games as well as improving pace of top-line growth during the quarter is a result of our efforts in this regard. Both games have also continued to climb the charts after the end of the quarter.

REPEATED SUCCESS

The success of Hidden City, which now equals and even eclipses the performance of The Secret Society, demonstrates that we can repeat and exceed the success of our best performing games. Equipped with the experiences from two very successful games in the same genre, we can apply the knowledge to create even more successful games and take them further and faster. Hidden City is now firmly established within 50 Top Grossing games for iPad in USA. It is one of the most downloaded and top selling hidden object games in the world. This makes us excited about the prospects of further growth of the game's

audience and revenue, and our ability to create more successful games in the genre. There are only a handful of top-ranked F2P hidden object games in the market, and it is good to have two of these in our portfolio.

SOLID FUNDAMENTALS

We continue to show strong profitability in the business even though we are spending significant resources on growing the company, both through development and marketing. The third quarter also shows strong cash flow. Taking into account that we are getting close to balance between capitalization and amortization, current profitability level means that the company is generating a positive cash flow. Any increase in profitability in the future is also likely to lead to an increase in cash flow. It is the focus of management to safeguard that the company is both profitable and cash flow positive going forward, and that we also have a positive "Net" EBIT, even if we take away capitalization and amortization effects on the profit. The management remains focused on profitability and growth, with the goal to continue increasing the top line and provide gradual improvement of earnings year-on-year.

PROMISING OUTLOOK AND NEW GAMES

Our strategically placed development studios in Russia and Ukraine continue to save us substantial money when it comes to the cost of development. The work continues on the rest of our F2P games portfolio. Just a few weeks ago we released Twin Moons Society, a new F2P hidden object game, developed and owned by G5. We are also going to bring more games to the market before the end of the year or shortly after. We are excited about these new releases and the possibility to apply lessons learned on Hidden City and Survivors to existing and new games. There is a substantial upside in adding more well-performing games like Hidden City, Survivors, and The Secret Society to our portfolio, and that is the goal we are pursuing.

JULY-SEPTEMBER

Revenue amounted to SEK 126.5 M [96.1]. Revenue increased by 32 per cent compared to the same period in 2015. The growth for free-to-play games was 39 per cent where Hidden City was the main driver of the growth in the quarter but also Survivors grew substantially. The portfolio of unlockable games is still giving a contribution to the group but its absolute and relative size is shrinking.

Cost of revenue increased with 35 per cent to SEK 68.9 M (51.2). Cost of revenue includes commission to the distributors (Apple App Store, Google Play, Amazon Appstore, etc.). All relevant parties charge up to 30 per cent of gross revenue. Cost of revenue also includes royalties payable to external developers which increased by 42 per cent compared to the same period in 2015. The increase in royalty is due to the success of Hidden City and through that the relative growth of revenue of licensed games compared to games owned by G5

Together they amounted to SEK 4.6 M (-0.7), primarily driven by currency effects on operational assets and liabilities. During the quarter a netting of the long term receivables and short term receivables between group companies has realised a positive currency effect, previously reported in equity which is a non-cash effect in the income statement.

FRIT

Depreciation and amortization have increased due to the increased size of the game portfolio and amounted to SEK 11.2 M (8.9). Write-downs during the quarter amounted to SEK 2.7 M (4.5).

RELEASES DURING THE QUARTER

In August, the company released a new licensed game, The Nightmares From the Deep, on Apple App Store. In September the company released Twin Moons Society, a game owned and developed by G5 Entertainment, on Apple App Store. Even though different, both games qualify into the hidden object puzzle adventure like other successful games in the company's portfolio. The games are currently in the "soft launch" mode and the team is working on optimizing the parameters and bringing more content into the games.

G5 has also continued rolling out previously released games on more platforms: Mahjong Journey was launched on Windows Store and Facebook, Hidden City was launched on Windows Store and for Mac, Paranormal Agency was launched on Google Play and Amazon App Store and finally Farm Clan (previously Brave Tribe) on Facebook.

JANUARY-SEPTEMBER

REVENUE AND GROSS PROFIT

Revenue increased with 17 per cent compared to the same period in 2015, driven by the growth of the group's free-to-play-games. Revenue amounted to SEK 332.2 M [283.1]. Revenue from free-to-play-games increased with 23 per cent compared to the same period in 2015.

The group's cost of revenue was SEK 174.2 M (149.1). Gross profit amounted to SEK 157.9 M (134.0), an increase of 17 per cent compared to the same period in 2015. Gross margin was 48 per cent (47).

OPERATING COSTS

Operating costs increased with 6 per cent compared to the same period in 2015. User acquisition increased to SEK 58.7 M (58.1). Excluding costs for user acquisition the operating costs amounted to SEK 70.8 M (61.6). The operational costs were impacted by depreciation and amortization of SEK 28.0 M (21.1) and write-downs of SEK 4.9 M (5.5).

Other operating income and costs impacted the period with SEK 2.4 M (-2.9), primarily attributed to exchange rate differences on operational assets and liabilities.

EBIT

EBIT was SEK 30.8 M (11.4) and the EBIT-margin was 9 per cent (4) for the period.

NET PROFIT

Net profit was marginally affected by financial items. Tax affected the result with SEK -5.4 M (-5.6) corresponding to an effective tax rate of 17 per cent (49). With the group's increased focus on profitability the effective tax rate stabilizes between periods due to more evenly distributed earnings within the group.

Net profit amounted to SEK 25.4 M (5.8) which is corresponding to earnings per share of SEK 2.88 (0.66).

CASH FLOW

During the quarter, the group had an operating cash flow before changes in working capital of SEK 23.6 M [17.4]. Changes in working capital impacted the cash flow positively with SEK 10.8 M [-8.3]. Capitalized development expenses impacted the cash flow negatively with SEK -12.8 M [-8.7].

Cash flow for the third quarter amounted to SEK 21.0 M $\left[-0.1\right]$.

For the interim period cash flow before changes in working capital amounted to SEK 60.5 M (36.6). Cash flow amounted to SEK 20.0 M (-2.2).

Available cash on September 30, 2016 amounted to SEK 54.1 M [31.0].

FINANCIAL POSITION

The company's publishing strategy is based on having a certain number of different games in the portfolio, in order to maximize potential and reduce risk. Some of these games become very successful and profitable, while a few other games may fail in the market. Capitalized development expenses for unsuccessful games will then have to be written down. Over time, the company expects such write-downs to be more than compensated for by the revenue and profits produced by successful games in the portfolio.

Capitalized development expenses amounted to SEK 103.9 M (89.8) of which SEK 101.0 M (79.7) is related to free-to-play games and SEK 2.9 M (10.1) is related to Unlockable games. The company separates released and not released games where not released games include games that have been active in the app stores for less than 6 months as this initial period is needed for optimization of the game. During the initial 6 month period after launch, the company does not amortize the games.

MSEK	SEP 30, 2016	SEP 30, 2015
Released games F2P	69,9	47,6
Released games Unlockable	2,7	5,9
Not released games F2P	31,1	32,1
Not released games Unlockable	0,2	4,2
Net value of games portfolio	103,9	89,8

Impairment need in the portfolio is tested on a quarterly basis. A thorough review of the input parameters is done on a yearly basis. During the quarter write-downs amounted to SEK 2.8 M (4.5) whereof SEK 1.7 M was related to a free-to-play game and SEK 1.1 M was related to a unlockable game.

Consolidated equity amounted to SEK 148.4 M (114.6), which equals SEK 16.9 per share (13.0) and the equity/asset ratio is 69 per cent (66).

Cash on hand amounted to SEK 54.1 M (31.0).

The group has no interest bearing debt.

PARENT COMPANY

The parent company revenue increased in line with the group. The parent company is the counterpart for almost all application stores where G5 sells its products. The costs consist mainly of payments to one of the subsidiaries in Malta, that holds the rights for the games in the portfolio. Over time, the transactions should generate a surplus for the parent company, but during shorter periods some imbalances may occur.

As for the group, the financial position of the parent company is solid.

OTHER DISCLOSURES

PARENT COMPANY ACCOUNTING PRINCIPLES

Changes in RFR 2, with effect from the financial year 2016, impacts the financial statements and the comparative period for the parent company. Translation differences which are attributable to receivables from subsidiaries, which are not scheduled to be settled in the foreseeable future are recognized in the income statement from January 1, 2016. These translation differences have previously been recognized in other comprehensive income / fair value reserves. The change is implemented with retroactive effect, which means that the translation effect arising during the financial year 2015, 3,099 KSEK, will be transferred from fair value reserve to the income statement and the accumulated effect as of January 1, 2015. 8,420 KSEK, will be transferred from fair value reserve to retained earnings. The change does not affect the consolidated financial report where the effect will continue to be recognized through other comprehensive income to other reserves in equity.

REVIEW REPORT INTRODUCTION

We have reviewed the interim report for G5 Entertainment AB (publ) for the period January 1 - September 30, 2016. The Board of Directors and the CEO are responsible for the preparation and presentation of this interim report in accordance with IAS 34 and the Annual Accounts Act. Our responsibility is to express a conclusion on this interim report based on our review.

SCOPE OF REVIEW

We conducted our review in accordance with the International Standard on Review Engagements ISRE 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review has a different focus and is substantially less in scope than an audit conducted in accordance with ISA and other generally accepted auditing practices. The procedures performed in a review do not enable us to obtain a level of assurance that would make us aware of all significant matters that might be identified in an audit. Therefore, the conclusion expressed based on a review does not give the same level of assurance as a conclusion expressed based on an audit.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim report is not, in all material respects, prepared for the Group in accordance with IAS 34 and the Annual Accounts Act, and for the Parent Company in accordance with the Annual Accounts Act.

NOTE 1 - ACCOUNTING PRINCIPLES

G5 Entertainment's consolidated accounts have been prepared in accordance with International Financial Reporting Standards (IFRS). This report was prepared for the group in accordance with the IAS 34 Interim Financial Reporting and the Annual Accounts Act. Accounting and calculation principles used in the report for the group are identical to those used in the Annual Report 2015. None of the new and changed standards from IASB, applicable from 1st of January 2016, has had any material effect on the Financial Statements. For detailed information on the accounting principles, see Annual Report 2015.

Changes in RFR 2, with effect from the financial year 2016, impacts the financial statements and the comparative period for the parent company. Translation differences which are attributable to receivables from

These translation differences have so far been recognized in other comprehensive income / fair value reserves. The change is implemented with retroactive effect, which means that the translation effect arising during the financial year 2015, 3,099 KSEK, will be transferred from fair value reserve to the income statement and the accumulated effect as of January 1, 2015, 8,420 KSEK, will be transferred from fair value reserve to retained earnings. The change does not affect the consolidated financial report where the effect will continue to be recognized through other comprehensive income to other reserves in equity.
